

HURRICANE RESISTANT

HOLDS BACK HURRICANES.
DANCES WITH LIGHT.

Anyone who's ever experienced a hurricane knows that hurricane force winds are powerful, but the real danger comes in the form of flying debris. That means, if you're designing a building to withstand a hurricane, it needs to be able to stand up to flying debris as well.

LightWise® Architectural Systems Hurricane-Resistant Glass Block Windows

- Withstands hurricane force winds
- **Protects against flying debris**
- No need for shutters

Protect your building and its occupants with LightWise Architectural Systems Hurricane-Resistant Glass Block Windows. They meet the large missile impact tests referenced in the International Building Code and Dade County Approval Protocols. Plus they're attractive, easy to install and offer the kind of privacy and light aesthetics you can only get with glass block

LightWise® Architectural Systems Hurricane-Resistant Glass Block Windows

Hurricane-Resistant Glass Block Windows

LightWise Architectural systems Hurricane-Resistant Glass Block Windows brighten any application with soft, natural light. They're ideal for use in commercial applications where beauty, light transmission and protection against hurricane force winds and debris is critical. The window has passed the large missile impact tests recognized by the International Building Code, Florida and Dade County and is approved for use in coastal areas.

Features and Benefits of the Window Include:

- Visually stunning, pre-fabricated panels that are easy to install
- No need for shutters
- Customizable to meet project needs
- Guaranteed to meet your performance requirements
- Useful for daylighting strategies and can contribute to LEED points
- Protects against flying debris and hurricane force winds
- Available with a range of visibility and privacy options
- Graffiti-resistant, damage-resistant and easy to clean
- Greater security than conventional windows
- Possibilities are limited only by your imagination
