you, please call  
1-866-430-2263.

Founded in 1891, Acme Brick Company has grown to become the largest brick company in America. With many manufacturing plants, direct sales offices, plus a distributor network in the United States and Canada, Acme can provide the brick your customers want, in the sizes you prefer:

All residential Acme Brick carry the industry's first 100 Year Limited Guarantee for Single-Family Residences: a simple, transferable, easy-to-understand document that makes a powerful marketing tool for our builder customers. As a second sign of enduring quality, we stamp our residential brick with the Acme Brick

name in one end. The stamp is subtle, but its impact is unmistakable. These two tangible signs are Acme Brick's commitment to manufacture brick that exceed quality standards established by all building codes - to endure sub-freezing cold, withstand blistering heat, outlast a mortgage, and remain beautiful for 100 years or longer.

Leading builders know that Acme Brick homes deliver benefits beyond curb appeal: natural insulation, reduction in maintenance costs, lower insurance rates, higher resale value, and fire protection.

For the colors that customers crave, the all-around value that they expect, and the industry-leading customer service that you deserve, build with Acme Brick.

**King Size** – an Acme innovation that offers the curb appeal of standard modular brick, at a savings of 27% or more in material and labor;

**Queen Size** – versatile units made to local size preferences in two different regions;

**Estate Size** – color and texture on a grand scale (9<sup>5</sup>/<sub>8</sub>" × 3<sup>5</sup>/<sub>8</sub>" face dimension) with the same bed depth (2<sup>3</sup>/<sub>4</sub>") as our King Size brick;

**thinBRIK** – lightweight units that deliver all the appeal of real clay brick in 1/2" to 5/8" thickness; and

**Modular Size** – still the gold standard in many regions.

Mountain Brook - Montgomery Plant - Queen Size

Glacier White - Perla East Gate Plant - King Size

San Jose - Birmingham Plant - Modular Size

Alpine - Elgin Plant - Estate Size
