

Black Hills Building Stone Collection

Brentwood | 3" - 10" Heights

1-800-814-1072 | semcostone.com

★ The Semco Promise ★

Semco Stone owns and operates our own quarries. We pride ourselves in providing a natural and quality product. Our diverse landscape stone and building stone have some of the most unique products you will find. The beauty of our products is they are made from natural stone, therefore variations should and can be expected. Even though colors in our brochures are as close to the actual stone as possible, photographic and printing techniques – and even actual viewing conditions – can alter perception of color.

Selections should be made from actual samples whenever possible. Our samples represent the general characteristics of the stone. Natural variations can and will occur in size, color, and texture. Our samples are not to be interpreted as the only size within a sample range. Newly quarried stone can oxidize, darken, lighten, or otherwise change from the appearance either shown in the samples or represented in stock. Semco Stone does the best we can to maintain consistent colors and textures. Communication is key with landscapers, homeowners, masons, contractors and your sales representative so that Semco Stone can do our best to provide exactly what you need to complete your dream project.

As the largest distributor of natural stone products in the Midwest, at Semco Stone, we have earned our reputation through consistent products, advancements in technology, and quality and service that exceed industry standards, laying a solid groundwork for your success. If you are unclear about how your stone will arrive or what to expect when it is installed, ask a Semco Stone representative now. We operate to ensure lasting satisfaction and something our customers can enjoy for years to come.

"People don't buy what you do; they buy why you do it. And what you do simply proves what you believe."
