White & Light Grey Hex

Absolute

In Stock

The Absolute porcelain tile collection is inspired by a large prehistoric ocean that once covered the Moroccan Sahara more than 380 million years ago. The vivid movements within Absolute tile echo the rich sea life once present in the now desolate and austere landscape. Pressure and heat helped from the striking beauty of Erfoud fossils, similar to the pressure and heat necessary for creating beautiful porcelain tile.

Adrock

In Stock

Adrock was idealized with the ambition of translating the thought of "less is more" into a design proposal that, from a fusion of materials such as limestone, cement and basalt, creates a striking but alluring matte surface. The veins and elements of natural stones in this chromatic balance converges to a unique, contemporary view of the layers of time.

Cortina

In Stock

Cortina is a collection that provides a drastic color shading, due to the simultaneous presence of various types of wood and different degrees of ageing of the wood; this is the result of a precise process that was developed to discover and choose the most appealing boards. At the same time, however, the installed surface is balanced by alternation between more homogeneous and more detailed wooden boards.

Ipanema

In Stock

Ipanema is a series that has a contemporary and carioca look. A particular path designed on chromatic compositions. Black and white tones on small stones found on Portuguese boardwalks were translated into close-ups. The pure geometry of the square or sinuosity of the mosaic that alters the scale and expands the beauty of the famous "cariocas" sidewalks.
