

Elgin Plant

Elgin, Texas | July 2026

Desert Sand, Purple Sage, Sage Brush, Santa Fe, Sierra, Texas Redwood

Strategically located near rich deposits of natural earth clays – and the major metro areas of Texas – Acme Brick Company’s Elgin Plant has been satisfying the requirements of architects and building owners for decades. In recent years, a vigorous product-development program has expanded the plant’s selection even further. The images in this brochure represent our selection as of press time. For our current selection, as well as advanced visualization tools, please consult our online resource at brick.com/onlinetools or our Elgin Plant page at (brick.com/plants/elgin-plant). The colors reproduced here are the best that technology can offer, but ask your Acme sales professional for physical samples before making selections.

	SIZE	DEPTH	HEIGHT	LENGTH
MOD	MODULAR	3 5/8	2 1/4	7 5/8
KSZ	KING	2 3/4	2 5/8	9 5/8

ACME BRICK SPECIAL SHAPES

Acme Brick's Elgin Plant also offers a special order shapes program. For a gallery of commonly produced special shapes, consult the Acme Brick Special Shapes Guide, available from brick.com as a PDF file.

Acme's special-shapes team collaborates with you to provide drawings for each shape needed, as well as elevations, exposed surfaces, dimensions, estimated quantities needed, and pricing.
