

STANDARD COLORS

These modular 7 5/8" x 2 1/4" thinBRIKTM are extruded units, with the added benefit of dovetail slots on the back. They are compatible with formliner systems, or with lightweight metal panel systems where brick are secured with a thinset system and then finished with traditional mortar. Corners are available in this size.

Taconite

ROMAN PLUS COLORS

Our flat thinBRIKTM also come in an extra large size, 19.5/8" x 1.5/8", for a modern clean look with fewer mortar joints.

thinBRIK™ APPLICATIONS

These are recommendations only for typical applications. Always follow the requirements of your local codes and manufacturers recommendations For more information visit $\frac{brick.com/tn28c}{brick.com/tn28c}$
