Pave Your Way To Fundraising Success

with Monogrammed Brick Pavers

A Strong Community Deserves A Lasting Legacy

Everyone wants their name in stone, but how about brick? For your next fundraiser give your community the opportunity to be come part of something larger, literally. Plazas, walkways, foyers and gathering areas of all kinds, are perfect places to leverage when raising funds.

It just takes a few steps to get started. Choose from a **4"x 8" or 8"x 8"** brick, and then pick a color and your type of monogram. Monograms can be marked by lasers which fuse a colored glass material to the surface, keeping a smooth, easy to clean, and durable look on all colors. Or consider engraving your brick on our darker color options. Choose a font for your project, or leave the choice up to your backers.

Our genuine fired clay pavers are made with the same care and meet the same specs as their non engraved counterparts and are stain resistant and suitable for pedestrian use and light traffic.

Make Your Mark

A typical paver layout is all text, either marked or engraved, with the lines centered horizontally and vertically. A 4"x 8" Brick allows a maximum of three lines of text, and an 8"x 8" fits up to six lines of text.

Custom logos or designs can be added to the left or right size of the text on the 4"x 8" brick along with three lines of text. Or above or below three lines of text on the 8"x 8" brick. Designs alone will be centered on either size. Please note that graphics need to be approved ahead of time and require proper paperwork for copyright.

See the chart below for your font choices, the limit on how many characters will fit on a brick, and at what size. Keep in mind spaces and special characters count towards that number. We recommend picking a font and size ahead of taking orders.

We provide all paperwork, order forms to distribute, and will ship the finished brick directly to your location. When you are ready to order please email us at EngravedBrickCoordinator@brick.com.

Color Options

Red Rustic (WG30)

Antique (WG32)

Dark Antique (WG33)
