These modular 7 5/8" x 2 1/4" thinBRIK™ are extruded units, with the added benefit of dovetail slots on the back. They are compatible with formliner systems, or with lightweight metal panel systems where brick are secured with a thinset system and then finished with traditional mortar. Corners are available in this size.

STANDARD COLORS

Rushmore

La Sal Dark

Ivory

Mesa Red

Obsidian

Taconite

La Sal Dark & Ivory

Our flat thinBRIK™ also come in an extra large size, 19 5/8" x 1 5/8", for a modern clean look with fewer mortar joints.
