In a modern metropolitan space, a surface with a troweled concrete effect becomes the perfect background to show off your idea of interior design. To create environments that reflect the character of those who live there.

AN IMPULSE OF INDUSTRIAL CHIC
The warm shades of oxidation coexist with the cooler hues typical of concrete, in a surface that stands out for its decisive identity.
With their troweled concrete effect and soft touch, the wall tiles are energized by colors that brighten up the rigor of metropolitan style, creating beautiful spaces to live in.
INNOVATION AND DESIGN, TOGETHER

Technical performance and beauty coexist without compromise in large slabs that achieve new levels of excellence. The industrial concrete effect fills the space with a single continuous material, lending itself to multiple uses like floors, walls, and furnishing elements.

THE LARGE RECTIFIED TILES MEASURING 160x320, 120x278, 120x120 CM HAVE DIFFERENT PATTERNS TO ENSURE GRAPHIC VARIABILITY AND ARE IDEAL FOR USE IN ARCHITECTURAL SPACES OF ALL DIMENSIONS. LARGE NON-RECTIFIED SLABS MEASURING 162x324 CM ARE PERFECT FOR KITCHEN COUNTERTOPS, TABLES, FURNISHINGS, AND BACK SPLASHES.
Thanks to the Italian touch and attention to detail, the collection surpasses the minimalism of industrial style to become the centerpiece of original environments with a strong identity.
The concrete effect opens up multiple avenues for design possibilities. Its versatility, thanks also to the anti-slip 120x120 cm format and to the 20 mm thickness specific for exteriors, allows for a total look with a powerful visual impact.
PERFECTLY CONCRETE

The decisive character of the concrete effect and the neutral tones of its palette merge in a balanced space that gives a voice to the different personalities of those who live there.
