

Elite Entries Iron Doors

A Division of Elite Enterprises, Inc.

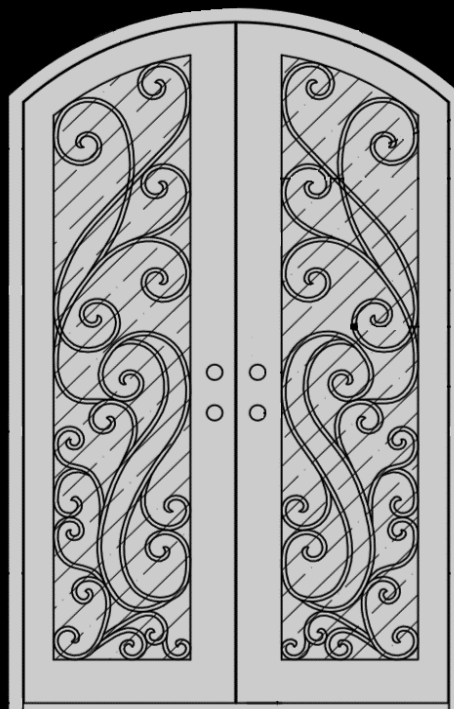

Why Choose Us ?

There are many reasons to choose Elite Entries Security Iron Doors, but the number one reason is QUALITY!!

- *In Stock - We have hundreds of In Stock doors to choose from, so there's no waiting time.*
- *Shipping – Our In Stock doors can be shipped next day.*
- *Install System – Each door is ready to install when delivered. Our doors are the easiest to install and come standard with insulated safety glass, removeable security screens, and weatherstrip system. Because of the unique “slide in” install process from the interior frame it makes replacement doors much easier than other iron doors to install without tearing up the interior or exterior of your home.*
- *Door Hardware – our doors accept standard door hardware to eliminate the need for custom or hard to find locks and latches.*
- *Built-in Drainage System – our unique sloped door slab design under the glass panel allows rain water to drain to the exterior side away from the glass panel and door.*
- *Security – Our Doors are made of the highest Quality 12 guage steel. Our screens are also made of 12 guage steel. Passive doors have mounted flush bolts to provide a secure lock when not in use.*
- *Hinged Glass -This offers convenience when it comes to cleaning the glass, and also gives you the option to leave the glass panel open for ventilation and still have security with the doors being locked.*
- *Energy Efficiency – Our breathtaking iron doors are injected with high quality polyurethane foam for year-round insulation. The foam also aids in the prevention of rust from forming and are built to last in any extreme weather environment.*
- *Customer Service – We are committed to the Best Quality and Best Service!*

Unparalleled Craftmanship
