King Klinker is one of the most advanced thin brick producers in the world. Founded in 1972, King Klinker built a state of the art thin brick facility in 2013. It manufactures thin brick with innovative modern designs, colors and textures at quality standards that exceed that of Europe and America.

Choose from 3 authentic thin brick collections for your next commercial, residential or remodeling application:

ULTRA PREMIUM
GLAZED
KING and MODULAR

The Ultra Premium Collection features IMPERIAL Sized Thin Brick that is like no other. The imperial sized thin brick is defined by it's long thin size and impressive colors and it saves on labor costs.

Design your next project with King Klinker thin brick to create an exceptional masterpiece.
Due to printing technology, the real color of our thin bricks may differ slightly from those presented in the photos.

Many of the American Collection colors are stocked in quantities of 15,000 to 250,000 square feet. Other colors are available, but not in stock.

Stocked orders are shipped immediately and will typically arrive to your destination within 8 weeks.

Mock up samples and sample boards are available for shipment in the United States.

Due to the properties of natural raw materials and the production process specificity of Klinker thin bricks, there may appear to be color differences between production batches. To achieve the aesthetic effect similar to the photos displayed in marketing materials mix thin bricks from several boxes during application.
IDEAL FOR PRECAST CONCRETE

Thin bricks can be produced to PCI tolerance.
Ask us about our PCI certification.
