

# Denton Plant

Denton, Texas | May 2025

*Denton Plant, Golden Sunset, Modular Size  
University of North Texas Special Blend*

Acme Brick's Denton Plant produces a unequalled variety of colors and textures of brick in numerous sizes. And, all of the products manufactured here will assist you in crafting buildings that will be beautiful and eco-friendly for decades. The Denton plant has been a trusted and reliable source of architects for over a hundred years. This plant's beautiful history of commercial projects is a testament to Acme's ability to meet the needs of architects nationwide. Interior Denton brick walls provide subtle earth tones that add a human scale and warmth to almost any project. To view our innovative online tools please visit [brick.com](http://brick.com). The colors reproduced here are the best that technology can offer, but please ask your Acme sales professional for physical samples before making selections.

## ACME BRICK SHAPES & SIZES

Execute your boldest designs – sharp corners, dramatic shadows, stately columns, soaring arches - entirely in brick. Acme Brick's Denton Plant maintains a comprehensive special-shapes program that includes arches, bullnoses, caps, coping, coves, radius units, shelf angles, slope sills, soldiers, watertables, and more. For a gallery of commonly produced special shapes, consult the Acme Brick Special Shapes Guide, available from [brick.com](http://brick.com) as a PDF file.

For the ultimate degree of design freedom, specify your own custom shapes, manufactured to order according to your exact specifications. Working directly from architectural plans, Acme's special-shapes team will collaborate with the design team to develop drawings for each shape needed, as well as elevations, exposed surfaces, dimensions, estimated quantities needed, and pricing.

When the project calls for something special, you can rely on the sales, technical, and manufacturing teams at Acme Brick to help you strike the perfect balance of aesthetics and value.
