

Cerámicas Mora, with a four-generation legacy of brick and ceramic material manufacturing in Spain (Illescas, Toledo), now also leads the production of Thin Bricks. We are proud to offer a novel and sustainable product that redefines facade decoration with a sophisticated and distinctive design.

At Thin Mora, we fuse tradition with innovation to provide cutting-edge design solutions that enhance the architectural beauty of any project. Our thin brick promote sustainability by being manufactured with environmentally friendly materials and significantly reduce construction time compared to conventional materials, increasing the efficiency of each project.

Residential, commercial, government buildings... our products offer a wide range of possibilities to transform any space into a work of art. Let us be part of your architectural project for the creation of extraordinary facades!

Black Sapphire Smooth

Modular Flats
#907881
Modular Corners
#907882
Water Absorption 6%
Breaking Strength
2700 N
Flexural Strength 20
N/mm²
Frost Resistant

Blanco Smooth

Modular Flats
#907879
Modular Corners
#907880
Dimensions
237x113x48 mm
Water absorption 6 %
Compressive
strength ≥ 20 N /
mm²
No Efflorescence or
Frosting
