Hurricane Impact Glass Block Windows

Hurricane Impact Glass Block Windows

Clear Choice® Hurricane Impact Glass Block Windows are an ideal solution for applications where both protection against hurricane-force elements and light transmission are critical considerations. These Hurricane Impact Glass Block Windows have passed the large and small missile impact tests recognized by Miami-Dade County Product Control.

Hurricane Impact Glass Block Windows offer the same privacy and beauty of glass block. The windows consist of a pre-fabricated SEVES BSH-20 Glass Block panel surrounded by a welded vinyl frame. Clear Choice® Hurricane Glass Block Windows are easy to install and maintain, and the durability and strength of the glass block eliminates the need for storm shutters.
