Absolute

In Stock

The Absolute porcelain tile collection is inspired by a large prehistoric ocean that once covered the Moroccan Sahara more than 380 million years ago. The vivid movements within Absolute tile echo the rich sea life once present in the now desolate and austere landscape. Pressure and heat helped from the striking beauty of Erfoud fossils, similar to the pressure and heat necessary for creating beautiful porcelain tile.

Adrock was idealized with the ambition of translating the thought of "less is more" into a design proposal that, from a fusion of materials such as limestone, cement and basalt, creates a striking but alluring matte surface. The veins and elements of natural stones in this chromatic balance converges to a unique, contemporary view of the layers of time.
